Bobby Loco's	manager
House of Blues	marketing + waiter

skills

Knowledge of both Mac + PC systems including audio application software like pro tools, logic, sound forge, peak and AV conversion software like sorrenson and compressor. Months spent in machine rooms with first hand knowledge of loads, laybacks, patch routing on both analog and digital systems. Familiar with VTR's like HD Cam, D5 and Digibeta. Time spent mix assisting including OMF setup, running ISDN sessions, ADR recording + editing and handling pre-dubs. // Practical experience in web technologies including HTML, CSS, PHP and network systems including FTP delivery, client file sharing, database systems // Years spent in customer service in both management and retail environments. // Hard work ethic, tireless interest in audio, programming and a continued desire to push myself to learn new and emerging technologies.
